Oblique groove at central tread enhance the high-speed driving steady.

Asymmetric pattern design to enhance the handling of cornering.

Anti-slip sipe enhance the stability of driving in different terrain.

Anti-uneven-wear shoulder strips design not only prevent uneven wearing and also enhance the supporting stability of shoulder at high-speed cornering.

SHANDONG HABLEAD RUBBER CO., LTD

# A-ONE

## Product Features >>

★ Comfortable passenger car tire

Many short irregularly arranged pitch to reduce tires' noise.

Specialized low-noise tread formula design.

Central signal direction tread pattern design to enhance tires' handling.

Four longitudinal drain grooves improve the drainage performance and prevent the lateral water slip.
